

STUDY PLANNER

Your study & evidence map

A unit-by-unit guide to the study sequence and proposed competency cross-references.

Week IDs below identify units, not the similarly numbered competency codes. The planned 10 hours per flagship week includes reading, practice, assessment preparation/attempts, feedback and correction; it is an unvalidated budget, not a fixed pace. Use the [learning route](#) for the starting check, readiness checkpoints and assessment-week planning. No live sessions have been scheduled by this installation.
